About the Conference

The DuPEAK Forum, as a world-class summit steered and attended by the **Worldwide top scientists and top entrepreneurs**, is dedicated to the **combination and integration of science and industry**, focusing on topics concerning, among others, the priorities and orientations of scientific and technological developments, the modern industry demands and the actual market trends, with the up-to-date research achievements to be presented and demonstrated as well as their commercialization and industrialization to be facilitated, **bridging the gap between scientific research and industrial applications**. The Forum aims to enhance the cooperation and coordination between China and Europe particularly for promoting innovations in high-technology areas, building a platform for professional networking, **interdisciplinary** exchange and mutual **inspiration**, so as to provide opportunities for excellent junior researchers and startup pioneers to communicate face-to-face with those renowned scientists and entrepreneurs from all over the world.
